### **Alsons Net Income Up 67% in Q1 2023**

Alsons Consolidated Resources Inc., (ACR) increased its net income in the first three months of 2023 to ₱ 542.27 million - 67% higher than ₱ 324 million in net income from the first quarter of 2022. ACR's net earnings attributable to the parent were also up significantly in the first quarter of 2023 at ₱155.84 million – a 73% increase from ₱90.16 million in the same period last year.

The publicly-listed company of the Mindanao anchored Alcantara Group saw first quarter revenues rise by 24% in 2023 to ₱3.31 billion from ₱2.67 billion in the first quarter of 2022.

“The first quarter of 2023 saw steady power demand from our key power markets in Mindanao. Our 210 megawatt (MW) Sarangani Energy Corporation (SEC) baseload power plant in Sarangani Province and our 100 MW Western Mindanao Power Corporation (WMPC) diesel plant in Zamboanga City remain to be our key revenue and income drivers for this quarter,” said ACR Deputy Chief Financial Officer Philip Edward B. Sagun.

The company's SEC power plant currently provides power to key areas in Mindanao including Sarangani Province, General Santos, Cagayan de Oro, Iligan, Dipolog, Dapitan, Pagadian, Samal, Tagum, Kidapawan, and Butuan.

ACR's WMPC power plant is the only major power generation facility in the Zamboanga Peninsula, providing power to Zamboanga City and supplying vital ancillary services to the National Grid Corporation of the Philippines to help stabilize the power grid in the Western Mindanao Region.

ACR is now focused on building up its renewable energy capacity in the next few years, with around eight run-of-river hydroelectric power facilities in the company's pipeline. The first of these hydroelectric power plants is the 14.5 MW Siguil Hydro power plant currently under construction in Maasim, Sarangani, which is targeting to begin operations before the end of this year.

The next two renewable energy facilities slated for development are a hydro and solar power project in Zamboanga del Norte with a potential combined capacity of up to 37.8 MW, and a hydro power project in the Bago River in Negros Occidental with a planned capacity of up to 42 MW.

The company which is Mindanao's first private-sector power generator, currently has a portfolio of four power facilities with an aggregate capacity of 468 MW serving over eight million people in 14 cities and 11 provinces in the country's second largest island.
